

Vinyl Polysiloxane Bite Registration Material

MAX BITE

MAX BITE is a medium-bodied Vinyl Polysiloxane bite registration material. Everything about MAX BITE's premium formulation was designed with convenience, reliability, and precision in mind. The perfect combination of superb handling characteristics and physical properties provides consistently accurate impressions.

FEATURES & BENEFITS

- Unique formula uses advanced molecules to create a very stiff; yet not brittle network that is hard yet flexible
- "Mousse-Like" void free consistency
- Higher final Shore A hardness of 85 and hardness is reached faster yielding a more accurate bite that won't distort during intraoral setting, upon removal, or at the lab
- Higher tear strength to withstand forces applied during removal and maintain integrity
