Chroma Chameleon

Universal One-Shade Composite Restorative

Chroma Chameleon One Shade Light Cure Composite from MARK3 is a shade matching universal composite that easily blends and adapts to surrounding tooth structure. Used in anterior and posterior restorations, Chroma Chameleon matches all vita shades from A1-D3. Besides its permanent gloss and toothlike opalescence, Chroma Chameleon shows excellent physical properties and superior handling. Contains innovative fillers with optimal light diffraction technology. In rare cases, a blocker may be needed to mask tooth discoloration or stains. For class I-V restorations.

SKU #100-4853 | (20) .25gm Compules
